

Car Investment ROI Report

Desert Wheels - Luxury Car Rental Investment Analysis

Generated: September 21, 2026

Lamborghini Urus

Input Parameters

Parameter	Value
Car Price	\$320,000
Daily Rent Price	\$1,200
Rented Days per Month	24 days
Company Commission	40.0%
Monthly Operating Expenses	\$5,500

Calculation Results

Metric	Value
Monthly Revenue	\$28,800
Company Commission (40%)	\$11,520
Income After Commission	\$17,280
Monthly Operating Expenses	\$5,500
Net Investor Payout / Month	\$11,780
Annual Income	\$141,360
Payback Period	27.2 months ~ 2.3 years
Annual ROI	44.2%

Calculation Formulas

- Monthly Revenue = Daily Rent Price x Rented Days per Month
- Commission Amount = Monthly Revenue x Commission %
- Income After Commission = Monthly Revenue - Commission Amount
- Net Investor Payout = Income After Commission - Monthly Expenses
- Payback Period = Car Price / Net Investor Payout
- Annual Income = Net Investor Payout x 12
- Annual ROI = Annual Income / Car Price x 100%
